

Rahul Gurung

Informatiker EFZ Applikationsentwicklung, in training

Flamatt, Switzerland · rahul@gurung.ch · www.portfolio.rahul.gurung.ch · LinkedIn · GitHub

PROFILE

I'm training as an Informatiker EFZ in application development and build backend applications with Java and Spring Boot. After my apprenticeship I want to start as a junior backend developer.

What I enjoy most about software is solving problems and learning something new. The field keeps changing, so there is always more to understand.

EDUCATION

Apprenticeship as Informatiker EFZ Applikationsentwicklung 08.2025 – 08.2029 (expected)
gibb Berufsfachschule Bern

Pre-apprenticeship (Vorlehre)

Interface design in Figma, prompt engineering with AI tools, project planning from start to finish.
